From the Ends of the Earth

October 2020, Phnom Penh, CAMBODIA

When the Cambodian government ordered the closure of universities, it seemed that half our ministry was being impeded. When they required places of worship to shut their doors, we wondered what we could do anymore. However, we held small group church in our home, and we continued with meeting and mentoring key people. Patti has made some close friendships with ladies from the Tum Nup Tuk church because they have met together in a smaller group. We trust you dear friends and family have had opportunity to be light and salt in your neighbourhoods as well.

In September TNT church re-opened with slight restrictions. It was good to get together once again. David had made videos for the church to

broadcast while the doors were shut, but he really does not like speaking to a camera. Each Sunday we see more people coming to the service. Praise God with us and pray we all stay healthy. Still zero covid19 deaths here.

The current dorm leader is Lai, a Kui tribesman from Preah Vihear province in the north of the kingdom. His tenure is about up, and we have decided to place Nareth at the helm in January 2021. To this end, Patti has been mentoring her weekly. She has completed her studies at university where she received a degree in English. Please pray the God will continue to equip

her for the task ahead. She will need to teach discipleship books and/or Theological Education by Extension material as well as keep an eye on the comings and goings at the Student Residence & Discipling Centre. Nearly all the residents have returned now as schools are opening again. We took them out for Korean noodles to celebrate. There are a few problems in the SR&DC that

we will not go into, but talk to God concerning them, as He knows all about them. We will be going on a team building outing in November. Pray for safety on the road and a resolve to our concerns.

I am not sure if the flooding in Cambodia made it onto your TV news. Due to a string of storms in the Philippines and Vietnam, we ended up with way too much water. Thailand had to open some of their dams and before we knew it, most of the kingdom was under water. We have never seen the levels this high in the city. You can see that TNT church was within a centimetre of having water run through the sanctuary. Coincidentally, our house and the church are the same level. We had prepared some sandbags, but God was merciful, and the rain stopped before we needed them.

Do you want to help?: <https://www.canadahelps.org/en/dn/37061>. Your Global Advance Fund "Support" helps C&MA IWs worldwide. Your gifts marked: "ENS Work Fund" keep our secondary ministries running. If you would like to donate to the Dorm Ministry in Phnom Penh, designate your gift to "Student Residence & Discipling Centre". All North American donations are eligible for tax receipts.

Serving Christ in Cambodia with the Christian & Missionary Alliance in Canada,

David & Patti Ens
